WE THE PEOPLE ASK THE FEDERAL GOVERNMENT TO CALL ON CONGRESS TO ACT ON AN ISSUE:

Provide credentialing for veteran military medical providers for COVID-19 response

Created by J.W. on March 27, 2020

We are calling on Congress and the National Governors Association to re-examine the current medical credentialing system. In the face of COVID-19, we must begin providing competency-based credentials to qualified veterans with medical military occupational specialties.

There are hundreds of thousands of military veterans with extensive training and experience in emergency medicine yet there exists no pathway towards credentialing or applying these individuals in a time of domestic crisis. Our taxpayers have invested hundreds of billions of dollars to train these individuals as the world's most nimble and effective problem solvers. Yet in this moment of need, we are keeping them on the sidelines.
